

## **MAD SCIENCE KAMPS of the Inland Empire**

Kids had so much fun at the summer camps offered, that we thought the camp shouldn't only be for summer! Come to the weekly class and have even more fun! Learn about the following:

N.A.S.A ~ The Academy of Future Space Explorers.

- Space Travel - See the principals of propulsion at work in a real rocket launch and Race a balloon rocket while learning about the four forces of flight.
- Atmosphere & Beyond - Discover how stars would look in space and see what makes stars twinkle.
- Sun & Stars - Watch star dust burn, and journey through a soapy galaxy as you investigate the life cycle of stars!
- Rocket Science - Explore the science involved in rocket construction as you build your own Skyblazer II Rocket™.
- Planet & Moons - Learn how the planets stack up, explore the farthest reaches of our solar system and create a lunar eclipse.
- Space Phenomena - Probe the mysteries of meteors and bounce around satellite light in this phenomenal program on space events!
- Living in Space - Use teamwork to complete an important space mission.
- Space Technology - Discover technology designed for outer space! Steer a laser beam through a laser maze.

**AGES:** 5 - 14 years
